21&Co offer after school communication groups which are designed to develop communication and social interaction skills. Our trained therapists work closely with the children and use interactive exercises and games to support and encourage the development of the children's communication, speech and peer relationships. There are 4 groups per week on a Tuesday afternoon at the Langdon Down Centre covering children aged 4 to 8 years. While the children are in their groups learning new communication skills, turn taking and making new friends, the parents have the chance to spend time together over coffee, while games and music entertain the siblings.
