Specialist Cycle Skills

Organisation details

Description of activity

The Royal Borough of Kingston and Richmond jointly run specialist 1:1 Cycle skills activities in local schools under the Aiming High Short Breaks programme in association with Achieving for Children (AfC).

WHAT:

The training is offered in small group ratios to disabled children and young people who are unable to learn how to ride a bike in a large group and cannot therefore benefit from the standard Bikeability Level 1 and 2 courses. These sessions are usually planned during school time as this allows a Learning Support Assistant to attend.

Training is available on a first come first served basis and subject to availability.
