Bikeworks Accessible Biking

Organisation details

Description of activity

At Bikeworks we believe that cycling should be accessible and possible for everyone, regardless of age, disability or experience. To enable this we run All Ability Cycling Clubs.

The clubs are open to all and have a range of adapted cycles including tandem tricycles, side-by-side and platform tricycles.

We run three different clubs, so there is provision across London four days a week.

Queen Elizabeth Olympic Park

Little Wormwood Scrubs

Victoria Park

We are always looking to run more clubs!

If you have a suitable space please get in touch: all.ability@bikeworks.org.uk

We also run improver sessions for people who want to take their cycling a bit more seriously.

We rely heavily on the good will on volunteers and offer plenty of benefits in return. If you'd like to get involved, get in touch!
