STARLIGHT

Organisation details

Description of activity

Starlight Children's Foundation is a national children's charity that is dedicated to brightening the lives of children and teenagers suffering from a serious or terminal illness.

We have been working for over 30 years to support sick children and their families because we know the difference happiness and laughter can make during times when it feels like there's not much to look forward to.

We do this through our extensive hospital entertainment and wish granting programmes. These programmes are based on positive psychology and offer distraction and positivity at a time when young people and families are at their most vulnerable.

Anyone can refer a child for a Starlight Wish – parents, grandparents, medical professionals, friends, social workers.
