National Saturday Clubs

Organisation details

Description of activity

If you are aged 13–16 you could receive expert tuition in exciting and inspiring subjects – for free. Joining a Saturday Club is a unique chance to learn new skills and meet people who can introduce you to further education and career opportunities. There is no testing and the aim is to focus on a subject you love.

Saturday Clubs take place in universities, colleges and cultural institutions equipped with resources that are not typically available in schools. Club Members also have the opportunity to meet industry professionals who can share information and personal perspectives on the world of work.

A Saturday Club is a place to make new friends and take part in trips to London (or other major city) and a national exhibition of Club Members' work. By participating in a Saturday Club, young people can discover their potential and develop ideas in a creative environment.
