SEN Unity

Organisation details

Description of activity

SEN Unity offers a range of engaging and interactive sessions specifically designed for neurodiverse children, including those with Autism, ADHD, and other learning and physical difficulties. Our mission is to provide support and resources that promote development and well-being in a nurturing and inclusive environment.

All our specialised programmes are based on Mendability therapy, which focuses on improving eye contact, concentration, speech and motor development in children. Through carefully designed activities and exercises, we aim to enhance their cognitive and sensory processing abilities. These sessions can be tailored to the unique needs of each child, and we offer both 1:1 sessions and group sessions to cater to different preferences and requirements.

Affordable online math tuition specifically targeted towards Year 5 and Year 6 students from families receiving benefits. We understand the importance of accessible education for all, and proof of Universal Credit is requested to ensure that we reach the families who will benefit most from this program. Our dedicated tutors provide personalised guidance and support to help students build confidence, strengthen their math skills, and achieve academic success.

During school holidays, we organise exciting and enriching holiday camps where sports, education, and art come together to create magical and unforgettable experiences. Led by experienced specialists, these holiday programs offer a diverse range of activities designed to engage and inspire children. From sports sessions that promote physical fitness and teamwork to educational workshops that foster creativity and critical thinking, our holiday camps provide a well-rounded and immersive experience for children of all abilities. At SEN Unity, we are passionate about creating a supportive and inclusive community for families and children facing unique challenges. Through our range of services and programmes, we aim to empower children, nurture their talents, and promote holistic development. Join us in creating unforgettable moments, fostering growth, and building lasting connections at SEN Unity.

We run activities at Roehampton University and in Richmond.
