Family Hub - The White House

Organisation details

Description of activity

The White House is Achieving for Children's first Family Hub in Richmond. We have refurbished the building so we can provide an all-age offer for children, young people, families and the community. Both the Children's Centres and Youth Service have now moved to the White House.

We continue to offer room hire for a range of spaces in the building.

Children's programme

The programmes from the previous Tanglely and Norman Jackson Children's Centres have now relocated to The White House, with a dedicated hall and fenced garden (entrance is at the back - take the walkway from Tanglely). There is also a health room to maintain appointments and sessions delivered by midwifery and health visiting services. We will be working with partners and parenting leads to expand our offer to families of children of all ages.

Youth programme

The Hampton Youth Project will be delivered from The White House with dedicated use of the Cafe and front room after school and in the holidays. The disused kitchen and storeroom next to the main hall has been refurbished to create a new music studio and all purpose classroom, which will be used for a range of activities. The Youth Project will continue to deliver sports and physical activities in the Hampton Sports Hall next door. We will be working with partners to create opportunities for learning and development for children and young people in these spaces, including the FUEL Holiday provision.

Community programme at The White House

The community programme, offered by a range of organisations and groups, will continue to be delivered in The White House (see the timetable below). If you want to deliver a community offer or run an event and hire a room, please see the link for room hire below.
