

Post diagnosis for parents -Online

07

Jul

⊙ All day

Are you the parent/carer/relative of a recently diagnosed child or teenager? If so, then our Post Diagnosis workshop provides you with the opportunity to develop an understanding of ADHD, its impact on brain function and to explore holistic approaches for managing the condition, both medical and non-medical.

Having a child or young person with ADHD can be an isolating and challenging time, so meeting with other parents/ carers who are experiencing similar challenges can be supportive and encouraging.
