ACE Education Advice

Organisation details

Description of activity

ACE Education Advice & Training is a new organisation that provides independent advice and information for parents on education issues in England. High quality training and consultancy services covering education law and guidance are provided to a wide range of education professionals.

Established following the closure of The Advisory Centre for Education, ACE Education continues much of the vital work of its predecessor and shares the same ethos and vision of a fair education system for all.

ACE Education strongly believes that education improves life chances for children and young people. We strive to improve access to and understanding of, an increasingly complex education system. We aim to help all families, particularly those who find themselves disadvantaged or marginalised.

ACE Advice and Information Service

We aim to offer a comprehensive range of advice and information on education issues. Our information is based on current education law and guidance and covers state funded education for children aged 5-16 years in England only.

ACE Telephone Adviceline

If you are the parent or carer of a child at school and you would like to talk to an adviser you can call our confidential telephone adviceline on 0300 0115 142. Calls to the adviceline cost the same as calling a standard landline number - even from a mobile. 0300 numbers are often included in any inclusive call minute packages offered by phone operators.

Normal opening hours: Monday to Wednesday from 10am to 1pm. Term time only
