Richmond Borough Mind

Organisation details

Description of activity

Richmond Borough Mind exists to meet local mental health needs. Through our various projects, staff and volunteers, we provide high quality, individually tailored services so people can live full lives and be connected to other people in their communities.

We work with others – from small local community groups to the Mental Health Trust – to minimise the impact of mental health problems and in partnership we aim to improve people's experience of mental health services. In collaboration with local and national organisations, we raise awareness locally of the importance of mental health and recovery and tackle the discrimination faced by people who experience mental health problems.

Richmond Borough Mind has a Youth Wellbeing Project which includes peer counselling sessions - <http://www.rbmind.org/youth-wellbeing-projects.asp>
