Man and Boy

Organisation details

Description of activity

MAN&BOY support boys in school years 5-8 (ages 9-12 years), who are struggling with an aspect of life, be it at school or at home and would benefit from developing a deeper relationship with a significant man from their family (dad, step-dad, uncle, grandfather etc.) through activities such as camps, courses and other connect events. Places are offered on the basis of need and because of recent strategic funding that we have been given to work with families in the area of Richmond and Kingston in 2020 we can offer free places for the Spring Programme. You can learn more at www.manandboy.org

Opportunities include: Weekend camping adventures, 6-week 'MAN&BOY' Relationship Building Courses - Climb and Connect courses, mentoring for fathers and reunion events for participants throughout the year.

We have a great team of facilitators, volunteers and management team who are passionate about fatherhood and the positive impact male role models can have on the boys growing up around us. Members of the team have a wealth of experience having led camps for dads and children for over 20 years. All staff and volunteers are carefully vetted and have a Disclosure and Barring Service (DBS) certificate.
